WELCOME TO THE 2024 ROCKHAMPTON AGRICULTURAL SHOW!

Get ready for a jam-packed program across the three days, 12-14 June. From the mesmerising Foxy Moron Magic and Comedy Show featuring Australia's Funniest Female Magician to the uproarious Dandyman - Ding Dilemmas Stage Show, and the legendary Monster Truck Aussie Thunda, there's excitement around every corner.

Prepare for laughter with the comedy duck and pig races, delve into the world of fishing with Shimano's captivating shows, and witness awe-inspiring trick riding in Centre Ring. Plus, don't miss out on the science workshops designed to spark curiosity in the young minds, and the Golden Oldies music shows that'll have you tapping your feet.

As part of our commitment to education, we're thrilled to introduce the Agricultural Education Program. We believe in connecting agriculture with our daily lives and empowering our community through hands-on learning experiences. With workshops, performances, and interactive activities the Agricultural Education Stage at this year's Show aims to give our community a deeper understanding of agriculture's vital role in our world.

Don't miss the countless competitions spanning the breadth of the event, from the captivating world of apiculture (featuring bees and beekeeping) to the majestic showcases of Commercial Cattle, Stud Beef, Horses and Dogs. Delight in the vibrant displays of Horticulture, Arts and Crafts, and Photography, or savour the delectable showdowns in Cake Decorating and Cookery. AGRICULTURAL EDUCATION

Welcome to the Rockhampton Agricultural Show's newest initiative: the Agricultural Education Program!

Recognising the importance of agricultural education, we are committed to enhancing the educational content at the Rockhampton Show to provide children and adults with the opportunity to understand the role agriculture plays in everyday life.

While not every Australian grows up on a farm, we believe that everyone should have the chance to experience the hands-on learning that comes with caring for animals and the environment as well as growing their own food.

Through a blend of workshops, performances, and hands-on activities, our program aims to:

Connect Agriculture with the Food System: We want to enhance understanding of food nutrition by illustrating the journey from farm to table.

Empower the Community: We want to provide children and adults with a wide range of practical knowledge, including crop cultivation, animal management and biodiversity. We aim to inspire and enable people to take an active role in their own food production.

Join us in the Robert Schwarten Pavilion for a fun filled day educating the next generation through our Agricultural Education Program.
