Agricultural Education

THUR & FRI SCHWARTEN PAVILION

Not every Australian grows up on a farm, but we believe everyone should have the chance to experience the hands-on learning that comes with caring for animals, nurturing the environment, and growing their own food.

Taking advantage of our Agricultural Education program is a fantastic opportunity to bring your students and family to the Show. Experience agricultural education in workshops, and presentations, all with a fun, interactive atmosphere.

As the Beef Capital and the centre of the region's rich farming and grazing lands, the Rocky Show plays an important role in helping every attendee understand the importance of our agricultural sector.

What can you expect from the Agricultural Education program?

At the Agricultural Education program, expect a large, engaged audience interacting with passionate presenters, showcasing their work and promoting their agricultural businesses.

There's opportunities to learn about:

- Native bees info session and bee hotel workshop
- Worm farming workshop
- Composting demonstration
- Beef taste test with CQ Organics
- Growing your own natives
- Recycling Race! for the kids
- And much more!

Activities are both educational and entertaining, ensuring that every visitor leaves with a greater understanding and appreciation of agriculture.
